THIS pamphlet does not pretend to be a scientific catalogue, but has been prepared as a working reference list of the books in our own library. Such a reference list was needed for our own use, and having been prepared, we decided that it should be "done into print" for the benefit of our friends.

All collectors are invited to come in and consult the books at any time during our office hours. The directors' room, which contains a large portion of the library, is separate from our business office, so that readers can be by themselves and free from disturbance.

The list of books is complete to this date, but new additions will be continually made to the library.

THE NEW ENGLAND STAMP COMPANY.

January 15, 1906.
